**What is your average day like?**

So far, lots of learning, however enjoyable learning.

**Have you had any coaches or mentors throughout your professional life that have had an impact on where you are today?**

Yes, when I was at University, I was taught to ask questions from both sides of the coin.

**What is the one thing you love most about your job?**

The people. Everyone is so helpful; nothing is too much. Everybody wants everybody to succeed.

**What has been your biggest success story to date or the achievement that you are most proud of in your career?**

My biggest achievement was opening my own business. Learning to do do selling, marketing, buying, accounts, health and safety. Unfortunately due to circumstances this has now been delayed until I retire where my husband and myself will do this together rather than on my own.

**If you could travel back in time, what is the one tip you would give your younger self?**

Listen to your mother, she usually had the right answer!

**Which inspirational or influential women would you invite on a girl's night out and where would you go?**

Margaret Thatcher- we would go to a restaurant overlooking the sea and put the world to rights. Ending poverty, wars, race violence, ensuring everyone had a health service and all had enough money and a place to live.

**What job did you dream of doing when you were little?**

Lorry Driver!
